

Coding Partnerships

Integrated coding partnerships that work as an extension of your HIM or revenue cycle team.

KIWI-TEK offers coding partnerships tailored to your hospital, clinic or physician group regardless of size, specialties and workloads.

You can choose whatever and how much coding you require—PRN, just a few specialties or a complete partnership coding program. .

What Makes Us Unique

Reason #1

Our management teams take full responsibility for the performance, training, education, quality and scheduling of the coding team assigned to you.

Reason #2

We align with your organization's current policies, workflows and procedures while sharing best-practice models from our other partners.

Reason #3

We help you contain operating expenses and maximize return on your coding investment by only charging you for the coding that we do for you:

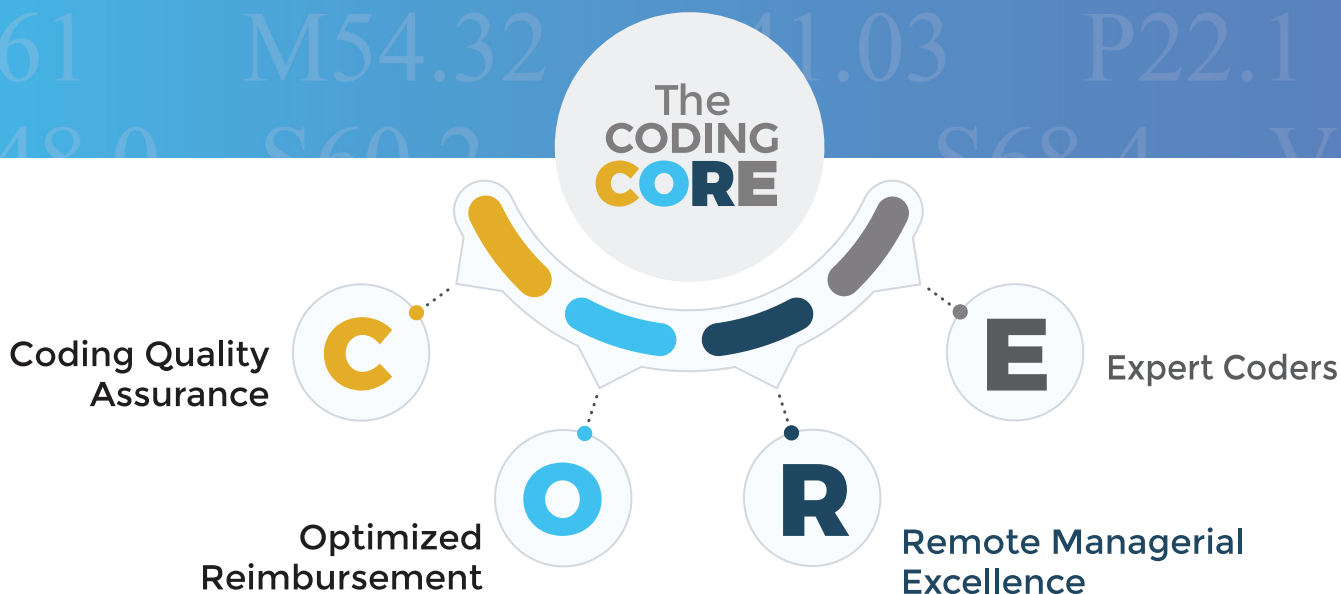

- o No hidden fees
- o No monthly minimums
- o Billing edits or denied claims? If we coded it, we fix any coding related edit or denial. No additional fee.

KIWI-TEK has a tremendous team. After 10 years of service, they're always responsive and helpful. It feels like they're taking care of us. Any time I call or email, they're on it. They care and want to help us. We're not just another number to them."
